

## Petrol performance improver For all petrol engines with and without a catalytic converter

**Reduces fuel consumption thanks to exact fuel preparation**

### Suitable for E10

- Protects against water occurring in the fuel tank due to the hygroscopic property of E10 fuel
- Prevents corrosion
- Cleans deposits in the fuel system

**Reduces the formation of harmful exhaust gases through optimum combustion**

Contents	300 ml
Colour	Colourless
Smell/fragrance	Solvent-like
Chemical basis	Hydrocarbon
Shelf life from production	24 Month

**Art. no. 5861 101 300**

P. Qty.: 1 / 12

### Details/Application

Removes lacquer-type deposits and resin buildup in pipes, petrol pump, carburettor, valve tips and valves. Also removes oxidation residues.

### Instructions

Empty the contents of the can into the fuel tank. The optimum amount is 150 ml for 35-40 litres. 300 ml is sufficient for 70-75 litres. The product is self-mixing. It does not do any harm if too much product is mixed.

### Proof of Performance

The usage instructions are recommendations based on the tests we have conducted and based on our experience; carry out your own tests before each application. Due to the large number of applications and storage and processing conditions, we do not assume any liability for a specific application result. Insofar as our free customer service provides technical information or acts as an advisory service, no responsibility is assumed by this service except where the advice or information given falls within the scope of our specified, contractually agreed service or the advisor was acting deliberately. We guarantee consistent quality of our products. We reserve the right to make technical changes and further develop products.
