

Technical Sheet

Identification datas

Product Name **MANUAL SHAMPOO**

Description Foaming detergent with neutral pH for external manual washing.

Properties:

MANUAL SHAMPOO is a neutral detergent for manual washing of the vehicles. The soft foam removes the dirt polishing the paintworks. Thanks to its neutral pH, MANUAL SHAMPOO does not attack the varnishes, the allumine, the chromeworks nor the plastic parts, even the regenerated ones..

Physical Classification

State	Liquid		
Colour	Light yellow		
Scent	Green apple		
Solubility in water	Total		
pH T.Q.	7 ca.		
Density	1 Kg/Liter		
Chemical classification	Anionic non-ionic solution		

Usage

Manual washing dilution 0,5%
High-pressure cleaner: 1:5

Pour the solution with a sponge or a glove and rinse with water. We recommend to avoid washing under sunlight and to use the solution on dry vehicle.
