Hydrophobic

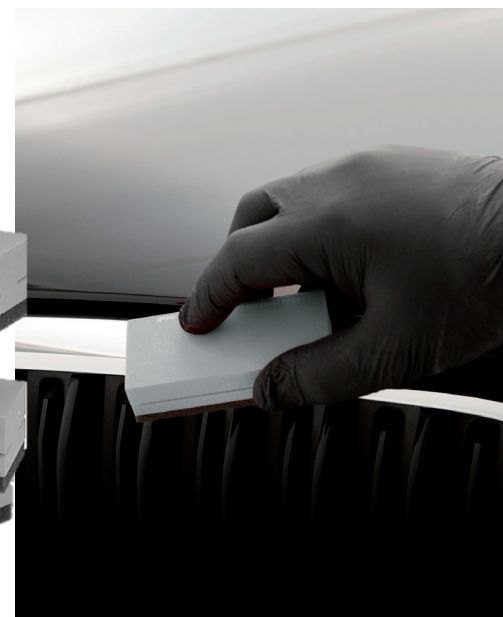

Nano tech

Anti soil

## Features:

1. Enhances Gloss
2. Scratch Resistant/**9H**
3. Highly Chemical Resistant
4. No Routine Polishing Required
5. Superior Self-Clean Technology

**5 YEARS PROTECTION**

# NANO CERAMIC KIT

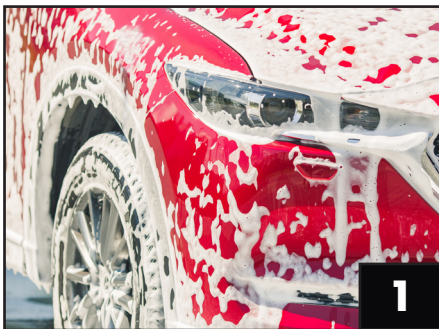

Art. No. 0893600050

## Application:

1. Wash the car. The surface must be clean.
2. Inspect the painted surface. Make necessary corrections, e.g. polish with Würth P30.
3. After polishing, spray on the **Panel Prep**. This will remove any grease. You can now do a final inspection of the surface.
4. Prime pad generously with **Nano Ceramic**. Apply onto surface. Work in a criss cross pattern.
5. Let the compound set for **1-2 minutes**. Wipe off using the **microfibre clothes** in the kit one for rough initial wipe, and one for final wiping.
6. Work one panel at a time, until you have covered all areas of the vehicle.

## Finalization:

1. Repeat process. Let the compound work for at least an hour between applications.
2. Inspect the final result.
