Contents: 5L

P.Qty: 1

WÜRTH Radiator coolant G11 is an engine coolant (HOAT) for cars, trucks, and buses, which fulfils the requirements of most leading car and truck manufacturers. The product is free of nitrites, amines and phosphates.

Radiator coolant G11 protects ferrous and aluminum cooling systems against frost, corrosion and over heating. Suitable for open and closed cooling systems and mixable with other coolant on basis of ethylene glycol. Change interval: 3 years. It is ready mix product.

Features and benefits:

- Improved heat transfer
- Reduces repairs
- Reliability

Performance levels:

SRPSH.Z2.010tipIII,hybrid,BS6580,ASTMD3306,B-MWGS94000,FIAT/IVECO 55523/1, Opel/General Motors L1301, Porsche, VOLVO 1286083 (produced before 2005), VW/Audi/Seat/Scoda-TL 774C Approved, MAN 324NF, MTU MTL 5048, MB 326.0

Properties	Units	Typical values	Methods
Density at 20°C	g/cm ³	1,05	ASTMD1122
Color	-	Red / Green	Visualy
pH value	-	7.5-9	SRPSH.Z8.052/ASTMD1287
Reserve alkalinity (pH5.5)	ml	Min 7	SRPSH.Z8.059/ASTMD1121
Boiling point	°C	105	SRPSH.Z8.058/ASTMD1120
Freezing protection, max.	°C	-18	SRPSH.Z8.053/ASTMD1177
